Michigan Career Education Conference

Amway Grand Plaza Hotel - Grand Rapids, MI

January 28-30, 2018

www.michigancareерconference.org
Thank you for your PREMIER SUPPORT of the 2018 Michigan Career Education Conference
Dear Conference Participant:

The conference theme, *CTE: Learning that works for Michigan*, reflects the important mission of career and technical education in preparing students for future careers that contribute to workforce and economic development in our state.

In the past year, the Governor’s Office, the Michigan Departments of Education, and the Talent and Economic Development have partnered to create the Michigan Career Pathways Alliance designed to provide innovative ideas to further assist educators in enhancing their CTE programs and services to build a stronger talent base in Michigan. The Going-Pro Campaign is an integral part in reducing the talent gap, as it is designed to change the dated perceptions of Professional Trades jobs in Michigan.

Congratulations to the **Excellence in Practice Award** winners for their outstanding career and technical education programs. These exemplary programs are “best practices” in preparing our students for careers that align and articulate with postsecondary education, professional and technical careers, and future employment.

Best wishes for a rewarding professional development experience. Enjoy the conference!

Cordially,

Patty Cantú, Director  
Office of Career and Technical Education
Exhibitor Drawing

*Don’t Miss It!*

Each year our Exhibitors graciously donate door prizes. This year the Conference Committee decided to change it up a bit. We are excited to offer you a chance to win donated prizes through the **Exhibitor Drawing**.

**Participation is Easy:**

- Each conference attendee is given six (6) *blue* drawing tickets when they sign-in at the conference registration desk.

- While you are visiting the exhibitor area throughout the conference, and view the latest educational products and services, place a ticket in the “bucket” next to the item you would like to enter to win.

- You keep the tickets that say Keep….

- Only the blue drawing tickets given at sign-in can be used to enter a drawing.

- You may put all your tickets in one bucket or distribute them between the prizes you like by 11:00 am on Tuesday.

- The drawings will be held at the end of the closing session on Tuesday.

- You must be present to win.

- Good luck!
Michigan Association of Career and Technical Education (MI ACTE) is a unified state affiliate of the National Association of Career and Technical Education. By unifying the Michigan association with the National association, members can take advantage of a comprehensive system of networks, resources, and essential information pertaining to Career and Technical Education (CTE).

As a professional association of CTE professionals, MI ACTE is committed to providing leadership in advocacy, professional development, and building an effective CTE network in the State of Michigan.

MI ACTE provides members an opportunity to access professional learning, recognizes exceptional practices through the awards process, and serves as an avenue for CTE stakeholders to come together to participate and contribute in a collective voice for the advancement of high quality CTE programming.

OUR COMMITMENT

The commitment of the MI ACTE is to partner with all related agencies to provide a one-stop information finding experience for teachers, administrators, students, parents, and business and industry. MI ACTE is committed to the promotion and advocacy for CTE Programs, teachers, and students throughout the State of Michigan.

YOU’RE INVITED

Your professional growth partner is the MI ACTE. Please join us during Session E for the annual meeting and learn how MI ACTE supports all career and technical education professionals through targeted professional development and legislative advocacy. Ample Q & A time will be provided.
Connecting Education and Careers

Association for Career and Technical Education

ACTE

+ Professional Development — High quality opportunities to enrich your curriculum and advance your career.

+ Networking — ACTE will help you create a network for sharing and exchanging ideas.

+ ACTE’s CareerTech VISION — The largest annual gathering of CTE educators, featuring hundreds of sessions and a comprehensive Expo.

+ Techniques Magazine — ACTE’s award-winning magazine features articles that delve into CTE trends, case studies and in-classroom innovations.

+ Career Tech Update and STEM SmartBrief — Tightly written summaries on the most important news affecting the CTE profession and STEM-related fields delivered directly to your inbox.

+ Professional Recognition — The Excellence Awards recognize individuals who have made extraordinary contributions to CTE.

+ Advocacy and National Policy Seminar — ACTE advocates, analyzes and informs policymakers, members and the public about the impact of legislation and funding decisions affecting CTE. Our National Policy Seminar brings 400+ professionals to tell policymakers that CTE programs provide the skills students need to thrive in today’s economy.

+ Member Insurance — Complimentary common carrier accidental death and dismemberment insurance, and discounted rates on professional liability and other insurance offerings.

+ Discounts on ACTE Products and Services — Member-exclusive discounts to all ACTE events, CTE publications, resources, and products.

+ Invaluable Career Resources — ACTE’s online job bank helps you find new and exciting work or the perfect candidate.

CERTIFICATE OF PROCLAMATION

ON BEHALF OF THE PEOPLE OF MICHIGAN

I, Rick Snyder, governor of Michigan, do hereby proclaim
February 2018

CAREER AND TECHNICAL EDUCATION MONTH

WHEREAS, career and technical education, in Michigan, prepares students to have the academic, technical, and work-behavior skills to enter, compete, and advance in education and their careers; and,

WHEREAS, career and technical education provides a diverse delivery system that provides students with leadership opportunities in various career fields, and allows them to experience rigorous and relevant application of workplace skills as well as incorporating reading, writing, and mathematical skills throughout their program; and,

WHEREAS, career and technical education serves as a career and college ready connection and is the backbone of a strong and well-educated workforce; and,

WHEREAS, career and technical education provides students with work-based learning experiences to provide Michigan with a highly skilled, sustainable workforce; and,

WHEREAS, during this month, we join with the Michigan Department of Education and the Association for Career and Technical Education to encourage both youth and adults in Michigan to be ambassadors for career and technical education, and to send the message that the significance of career and technical education is ensuring Michigan students are prepared for 21st century high demand, high skilled, and high wage jobs; and a key component in making Michigan a Top 10 education state in 10 years;

NOW, THEREFORE, I, Rick Snyder, governor of Michigan, do hereby proclaim February 2018 as Career and Technical Education Month in Michigan.

[Signature]
Rick Snyder
Governor
Every February, the CTE Community Celebrates CTE Month®

The ideas presented below are those found on careertech.org/cte-month-campaign.

How Can I Raise Awareness for CTE Month?

While national CTE groups such as Advance CTE, ACTE, and Career and Technical Student Organizations will publicize CTE Month, this is also a chance to raise awareness of your own work and engage all of your stakeholders in the CTE conversation, from students to policymakers. The following are some ideas to consider when planning the month’s activities:

Celebrate!
Recognize those in your community, whether it’s high-achieving CTE students, exemplary educators, or impactful partners that have a positive influence in CTE by celebrating their accomplishments through awards programs.

Recognize CTE at the State Level
Engage policymakers in the conversation by encouraging them to designate February as CTE month.

Involve Your Partners
The Career Technical Education (CTE) community encompasses all the people that work to make your CTE program – whether it’s at the local, state or national level – great, including education, community, and business partners. Encourage them to advocate for CTE to their own networks, and invite partners to participate in celebratory events or site visits.

Coordinate
Once you've got all partners on board, it's crucial to coordinate messaging among all who will help to promote CTE during the month. Supply partners with sample social media posts, templates and website copy to be sure all partners are messaging under a common theme.

Engage Employers
Contact local employers and businesses that aren't yet familiar with your CTE program and invite them to school visits to showcase high-quality CTE in action, or career fairs with already engaged employers. Use Advance CTE fact sheets and talking points designed specifically to address this audience.

Get the word out!
Let the local media know what’s happening and invite them to your planned awards ceremonies, career fairs or school visits highlighting innovative CTE. Tweet photos and event details here: @MI_ACTE.

Organizations that can support you as a CTE Educator:

ACTE [www.acteonline.org](http://www.acteonline.org) ADVANCE CTE [www.careertech.org](http://www.careertech.org)
ON BEHALF OF THE PEOPLE OF MICHIGAN
I, Rick Snyder, governor of Michigan, do hereby proclaim
February 18-24, 2018

ENTREPRENEURSHIP WEEK

WHEREAS, approximately 54 percent of young Americans envision starting a business or have already done so; and,

WHEREAS, entrepreneurship is the building block to success in the workplace and in communities as it brings ideas, creativity and innovation to life and drives economic growth on local, state and national levels; and,

WHEREAS, entrepreneurship is vital to job creation and is an integral part of Michigan’s reinvention and continued growth; and,

WHEREAS, during this week we encourage youth as well as all residents throughout the state to explore innovative ways in which entrepreneurship education can bring together the core academic, technical and problem solving skills essential for the success of our state’s future entrepreneurs; and,

WHEREAS, the National Governors Association encourages connecting education to economic growth industries, recognizing that entrepreneurship and small business creation are the growth engines of any economy;

NOW, THEREFORE, I, Rick Snyder, governor of Michigan, do hereby proclaim February 18-24, 2018 as Entrepreneurship Week in Michigan.

Rick Snyder
Governor
Michigan Talent Investment Agency is excited to introduce pathfinder - a one-of-a-kind career exploration tool that’s designed to increase the number of Michigan residents with high-quality, in-demand degrees and credentials. Pathfinder provides real-time current Michigan labor market information to students, their parents, guidance staff and all job seekers to help them make informed choices about educational and career options, as well as guides the creation of educational development plans.

With pathfinder, you can:

- Search for exciting and interesting careers
- Discover schools in Michigan that offer programs of interest
- See detailed job projections, annual openings, growth potential, salaries for Michigan
- View Michigan’s top careers

**Word on the street**

Feedback from Michigan students, parents, counselors and job seekers demonstrates a real interest and excitement to use the new pathfinder tool and get started on a path.

**I AM A STUDENT**

“The website is very easy to use. I was able to find the career I want and the schools that can help me get ready for it. I am excited to use this to explore other careers in Michigan.”

**I AM A PARENT**

“Having an 11th-grader this year, I can’t wait for this site to be made public! I believe my daughter and I would have fun exploring different educational avenues. This site is great and extremely informative. Thank you for this opportunity!”

**I AM A COUNSELOR**

“Kids want to know what jobs they are going to be able to get right away out of college and aren’t hard to get – like what jobs are going to be in high demand. This will help them learn what path they need to take to get those jobs.”

**I AM A JOB SEEKER**

“Having the most current information about jobs available right now is fantastic. I was also able to find information on the training I would need for different careers and wage projections for those careers.”

Open the door to new possibilities!

PATHFINDER.MITALENT.ORG
What is Going PRO?

Going PRO in Michigan is a campaign designed by the State of Michigan to elevate the perception of Professional Trades and to showcase opportunities in a variety of rewarding careers. #GoingPROinMI

Why?

- A sizable Professional Trades shortage exists in Michigan and is expected to continue.
- Professional Trades will account for more than 500,000 jobs in the Michigan economy by 2024.
  - Approximately 15,000 new job openings are expected annually in Michigan through 2024.
- The median wage for Professional Trades occupations is 45 percent higher than the Michigan statewide median wage for all occupations.
  - $51,000 is the median annual salary for Professional Trades careers.
- Opportunities exist in a variety of emerging industries:
  - IT
  - Healthcare
  - Advanced Manufacturing
  - Construction
  - Automotive
- Many career fields do not require a four-year degree.

Why choose a career in Professional Trades?

- High-demand, high-paying, meaningful careers exist in Michigan.
- Less school and debt than a traditional four-year college.
- “Earn while you learn” – completion of formal apprenticeship program while the individual is working.
- Above-median wages – $51,000 a year.
- Opportunities in a variety of career paths that align with a variety of skillsets.

By visiting www.Going-PRO.com, parents and students can:

- Research and search for jobs and apprenticeships (including MAT2)
- Discover upcoming career fairs
- Find CTE maps and contact information
- Read about CTE program summaries statewide
- Find apprenticeships (including MAT2)

This program is accurate as of press time. Any program updates and/or announcements will be made available to attendees through announcements at general sessions.

Session seating is filled on a first-come-first-serve basis. For the safety of all attendees, we must observe maximum capacity regulations in place by the conference venue.
General Information

Name Badges
Michigan Career Education Conference attendee/exhibitor badges must be worn at all times during the scheduled conference hours, not only as a courtesy to other registrants, but as an indication that your registration has been completed. Name badges are required for entry into all sessions and meal events during the conference.

Color Guard
Our appreciation to the Golden Knight Battalion Honor Guard, instructed by MSG Mike Nichols, 1SG Ken Beasley, and SFC Tom Edmond, who will open the conference with the Presentation of Colors and Pledge of Allegiance.

State Continuing Education Clock Hours (SCECHs)
Conference participants may earn State Continuing Education Clock Hours (SCECHs) while attending the conference. Registration for SCECHs can be completed by filing the SCECH application, and submitting a $10.00 application fee prior to the start of the conference. Applications are available at the Conference Registration desk located in the Center Concourse. To receive SCECHs, you must be in attendance for a minimum of three hours in eligible sessions and receive appropriate documentation at the end of each session. The lunch time sessions are not eligible for SCECHs.

Evaluations
Your evaluation of the breakout sessions and overall conference is vital for next year’s conference planning. Breakout session evaluations will be distributed by hosts at each session. Please complete a form for each session that you attend and return it to the host. You will receive an email containing an overall conference evaluation to be completed online after the conference. Please complete the survey so that your feedback and suggestions may be used for future planning.
*Please note: If you sign-up for SCECHs you will receive an additional survey via email that must be completed as part of the process to earn SCECHs.

Exhibit Hours
Exhibitors are located in the Center Concourse and Crown Foyer. Exhibiting hours will be as follows:

<table>
<thead>
<tr>
<th>Day</th>
<th>Sunday</th>
<th>Monday</th>
<th>Tuesday</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>4:00 pm – 6:30 pm</td>

</tbody>
</table>

Recording, Streaming, and Photography Policies
All presentations and associated materials are the presenters’ intellectual property – you must obtain the presenters’ permission to record or stream their session or activity in any medium. Recording/streaming for commercial purposes is allowed only with prior written permission from both Ferris State University and the presenter(s).
SCECH Information

There will be three to seven clock hours available at the conference. To receive seven hours, you must attend all sessions in full. Applications for State Continuing Education Clock Hours will be available at the Conference Registration desk located in the Center Concourse.

If you choose to apply for SCECHs, there are a few important steps involved with obtaining the SCECHs.

1. You must attend a minimum of 3 sessions as the Michigan Career Education Conference provides a variable offering of 3-7 SCECHs. If presenters release early, you have not met the time block submitted. Every effort is made to alert the presenter of this. For the Michigan Career Education Conference, this means entering a breakout session on time and staying in the same session for the entire duration of that time period.

2. You must have completed the SCECH application with your PIC number, and pay the $10.00 application fee prior to the start of the conference.

3. You must have the host sign you out at the conclusion of each session. Lunch sessions are not eligible for SCECHs. There will be a monitor available in each session room to sign your sheet as you depart. The conference has several breakout sessions, and you will be provided a sheet with all session opportunities outlined. It is your responsibility to find the monitor at each session to get your form stamped/initialed when you leave the session – you must attend the entire session.

4. You will receive an email from MOECS NoReply indicating you have 30 days to complete an evaluation form for the event. If you do not complete the evaluation, you will not be awarded SCECHs, nor will you be refunded the application fee. Do not confuse the evaluation of the conference, with the survey for the SCECHs.

5. Once you have completed the evaluation, you will be able to access your unofficial transcript. This will show all SCECHs and previous SB-CEUs that you have been awarded. You can print an official transcript from your MOECS account. Your SCECHs will upload to MOECS. Please visit www.Michigan.gov/teachercert for additional information regarding SCECHs.

Locating Your PIC Number: K-12 School District Employee PIC

Your PIC can be accessed by logging into your account in the MOECS system at www.Michigan.gov/moeecs, and clicking on “Click here to go to the MOECS Login Page”. If you have never been in MOECS before, create a MOECS account by following the directions:

1. Click on “Login Assistance” in the MOECS log-in box.

2. Enter your first and last name and the last 4 digits of your social security number. MOECS will determine you do not have an account and you will be redirected to create one.

3. Go back to the MOECS log-in page and log in with your new log-in name and password assigned through MEIS.

4. Answer all of the questions through the initial creation pages, and fill in all required fields. Click “Save” once you have completed these steps.

5. Your PIC will be pulled into your MOECS account and located on your Manage Demographics page, just below your email. If it does not appear there within three days, please contact the SCECH Administrator at SCECH@Michigan.gov.

If your PIC is not in your MOECS account, and you are not an MDE certified educator or K-12 school district employee, please contact MOECSSupport@Michigan.gov.

2018 Career and Technical Education Outstanding Programs

The Career and Technical Education Outstanding Program Award recognizes a successful, exemplary, state-approved career and technical education program that demonstrates outstanding outcomes, produces measurable results, and leads to documented success in employment or postsecondary education/training.

Ann Arbor Public Schools, Ann Arbor Student Building and Industry Program

The Ann Arbor Student Building Industry Program (AASBIP) is recognized for the exemplary utilization of their Program Advisory Committee. The committee meets monthly with an average attendance of 18 of the 25 members. In addition, committee members donate numerous hours of their time to the students by demonstrating their skills, serving as classroom speakers, and various sponsorships. The AASBIP students have numerous opportunities to get to know the committee members personally and are regularly found working alongside them; flipping pancakes, demonstrating their skills and abilities, working with them on a “Saturday Build”, and interviewing for a job.

Students in the AASBIP work as a team in accomplishing the goal of finishing a home in 9 months. Each semester AASBIP hosts a “Saturday Build.” Local contractors, Program Advisory Committee members, and alumni come to the build site and assess the student’s skills. They offer suggestions, build with the students, and often students are offered an internship. The 2016-17 home was 3,400 square foot and sold within a week.

Additional activities include the students overseeing build activities for the Showcase Day, which is a one-day event that includes grades 9-11 students from the five sending schools. Students also participate in the Ambassador Program which pairs a student with a special needs student or a student that needs additional help. The AASBIP is the only high school program that is invited to participate in the annual “Just Build It” at Eastern Michigan University. Middle and high school students from area schools attend the day to see the multiple opportunities the building and industry trades have to offer.

Careerline Tech Center, Public Safety and Security Services Program

The Public Safety and Security Services (PSSS) program at Careerline Tech Center is recognized for its innovative relationships with local business partners and their strong curriculum alignment to local and state standards. Students who complete the PSSS course are prepared for immediate employment as public and private security officers, cadets with local and state police officer programs, the Armed Forces as Military Police, and/or continuation of their education towards a postsecondary degree.

The PSSS is established with the local areas as a program that provides students with leadership training and a passion for community service. The dynamic leadership team of this course, Mr. Lee Hoeksema and Mr. David Blakely, pride themselves on providing a classroom environment that meets the relational needs of their students while delivering a rigorous curriculum that is current with local trends.

An exemplary feature of this program is the intentional focus on the mental and physical wellness of the students. Depression, anxiety, addiction, anger, heart problems, high blood pressure, and suicide are all potential issues for anyone serving in the protective services field. Throughout this course there is an emphasis on the balance of mental, physical, community, and spiritual health.

In the 2016-2017 school year the Careerline Tech Center PSSS program partnered with 9 unique businesses to provide students with 70 different work-based learning experiences totaling 415 hours. The PSSS is prominently established within the local areas as a program that produces students with leadership training and a passion for community service.
The Career and College Readiness Initiative Award recognizes outstanding practices, programs, or services that demonstrate exemplary support of career/college planning for students (that include their interests, abilities, and skills), promotion of high academic expectations, and linking secondary course taking (including CTE) to prepare for postsecondary education and careers.

Alpena Public Schools, Alpena Schools Career and College Campaign

We applaud the significant accomplishment of Alpena Public Schools (APS) for their success in the reestablishment of their good standing after having been reported on the deficit school spending list and their secondary buildings declared focus schools.

The APS District promptly established a committee named “Raising the Bar” to study student achievement and student “culture” within the district. The results of the study lead APS to elect the motto “A Culture of Excellence”. That culture was developed by instituting a district wide MTSS initiative and a concentration on changing culture with a Career and College Readiness campaign for all. APS received a CTE integration grant, and the welding technology, construction technology, and auto tech CTE programs are teaching algebra II standards so student can be competitive within the college and job markets. With an agreement having been established this past May between Alpena Community College and APS, the first cohort of 38 graduated their 13th year. There are currently over 40 in each of the upcoming classes.

Alpena Public Schools has committed to the use of Career Cruising. All APS students, from 7th grade forward, visit the website and complete the lessons for their grade level. In 7th grade, students spend significant time in career exploration activities. During the 8th grade, the career cruising functions as a tool for identifying high school pathways and course scheduling. The district-wide career and college ready initiative is comprehensive and not just geared to the CTE student, but to every student regardless of abilities.

“Out of some very intense discussions, a need for EVERY student to have a career and/or college plan was evident to decrease course failure rates and increase graduation rates. To do this…it took everyone in the district and community to make a conscious effort...for our kids! And we have!”

Wexford-Missaukee Career Technical Center, The Tentacles of Collaboration

The Wexford-Missaukee Career Technical Center (WMCTC) (a low income and rural area) has successfully collaborated with many different local agencies, organizations, and businesses to provide a successful pathway to removing all barriers for every student. The cornerstone of the initiative was building unique Relationships and forming personal Partnerships. Local manufacturers and businesses had continuously requested that graduates have exceptional soft skill training. The Center enhanced their curriculum to not only emphasize the technical skill training, but also the importance of soft skills for job retention. Students now develop a career path for a selected occupation, prepare a cover letter and resume, and participate in a mock job interview. All students participate in job shadows, tours, and in some cases work-based learning opportunities.

Students are successful because of one key outcome Relationships, which are developed with the local schools, organizations, postsecondary institutions, and businesses. By utilizing these tentacles to reach their community partners, WMCTC can address the needs of every individual student, and assist each student in their ability to be successful. The strengthened personal relationships with employers has allowed WMCTC to meet the employment needs for local employers by better preparing students with not only the technical field skills, but excellent soft skills as well. Because local employers are hiring students from WMCTC, these students are able to live locally and are now productive members of the community.

“It truly does take a community to ‘raise’ a child.”
Michigan ACTE Awards

The MI ACTE awards seek to promote excellence in career and technical education by recognizing individuals who have positively impacted students, made extraordinary contributions to the field, programs that exemplify the highest standards, and organizations that have conducted activities to promote and expand career and technical education programs.

**Michigan ACTE Teacher of the Year**
For members employed as full-time classroom/laboratory CTE teachers at the secondary school level.

Tiana Haynes is the Teacher of the Year

Tiana is a cosmetology instructor at the Genesee Career Institute. Tiana works hard to ensure student success by analyzing test data regularly. Students are often tested on their skills and Tiana gives timely feedback to ensure they can be successful. This has proved very beneficial as she has above 86% pass rate on the cosmetology state license exam. Tiana worked with her advisory committee to create plans to open a salon right at Genesee Career Institute. Tiana recognized that transportation was a barrier for students. This barrier limited their ability to learn on the job skills that were necessary for employment. Tiana approached local administration to create the salon and it has created a great connection for our students to the community.

**Michigan ACTE New Teacher of the Year**
For members employed as full-time classroom/laboratory CTE teachers (at secondary or post-secondary level) who are new to the teaching profession (3-5 years’ experience).

Deirdre (Dede) Ford is the New Teacher of the Year

Dede is a criminal justice instructor at the Calhoun Area Career Center. Being a prosecutor for more than twenty years has allowed Dede to bring a fresh set of eyes and experiences to the education setting. Dede understands that it is the relationship building in criminal justice that is so critical. Whatever aspect of the industry that students will work in, relationships are the most important element. One of the greatest things Dede has done in the classroom has opened the doors for her students. She has brought in numerous guest speakers, including Family Victim Advocates, 911 Dispatchers, Defense Attorneys, Prosecutors, and other professionals in the field. She has taken students on numerous field trips. Students have gone to the Michigan State University College of Law, the Calhoun County Justice Center, Michigan State Police (MSP) Aviation Unit, MSP Bomb Squad, Michigan Supreme Court and Michigan Court of Appeals. She clearly sees the merit in exposing students to experiences beyond the classroom.

**Michigan ACTE Career Guidance Award**
For members employed as full-time school counselors and/or career development professionals.

Tina Bacigalupo is the winner of the Career Guidance Award

Tina is a counselor at the Bay-Arenac ISD Career Center. Tina is focused on people first. She cares deeply about those that she works with and is tireless in her efforts to offer assistance and support. Her positive energy is contagious and foundational to her ability to move initiatives forward. As CTSO Coordinator at the Career Center for nearly 20 years, Tina coordinates, directs, implements and follows-up on every aspect of these unique co-curricular activities. Tina was key in the development and implementation of a comprehensive post-secondary planning process that was light years ahead of its time. With a structured process beginning in the 11th grade when students first arrive at the Career Center, all students are guided through every aspect of career and college exploration, applying for college, financial aid, registration and career advising. Tina is hands-on in her approach, ensuring that CTE programs take students on at least two college visits per year.
For the second year in a row, a Michigan student was awarded the prestigious honor of being named a Presidential Scholar. This honor is presented to 20 elite CTE students throughout the nation.

In 2017, Carley Claucherty, was a Senior at Springport High School, she was recognized for her exemplary work in the Springport Agriscience Program. The 2018 Scholars will be announced in May.

SAVE THE DATE

2019 Michigan Career Education Conference
Amway Grand, Grand Rapids, MI

January 27 - 29, 2019
2018 Conference Planning Committee

As the program chair for the planning committee, I want to acknowledge the great work the committee members do throughout the year to ensure a successful conference for all CTE Professionals in Michigan.

Featured Speakers

Wendy Larvick, Chief of Staff to State Superintendent, Michigan Department of Education

Wendy Larvick is the Chief of Staff to State Superintendent Brian Whiston at the Michigan Department of Education (MDE). She has served MDE since October 2012, initially as the Legislative Liaison for the department. Wendy’s previous work experience includes 10 years with the Michigan House of Representatives as a legislative and education policy advisor and five years as a middle school English and Social Studies teacher.

Roger Curtis, Director, Michigan Department of Talent and Economic Development

Appointed by Gov. Rick Snyder in November 2016, Roger Curtis oversees efforts to ensure that Michigan can efficiently and effectively develop, administer and coordinate Michigan’s economic, housing and talent development programs.

As a long-time business operator and a member of Gov. Snyder’s 21st Century Michigan Education Commission and his local school board, Curtis understands how developing talent requires coordination and cooperation between employers and educators. And, he recognizes how building talent is a key factor in Michigan’s efforts strengthen its economy and communities.

Curtis works with state Superintendent Brian Whiston to lead the Michigan Career Pathways Alliance, which is focused on ensuring students have improved access to career exploration and training and schools getting more support.

He sits on the board of the Michigan Strategic Fund, the Michigan State Housing Development Authority and the Michigan Land Bank. Curtis formerly served on the Michigan Tourism Commission. Before being appointed as the director of the Michigan Department of Talent and Economic Development, Curtis was president of Michigan International Speedway for 10 years, driving an estimated $414 million in economic activity to the state and expanding the speedway into a year-round attraction.
Featured Speakers

Tonya C. Bailey, TCB Consulting LLC

Born and raised in Flint, MI where she attended Luke M. Powers Catholic High School and graduated from Flint Northwestern High School. She is a graduate of the University of Evansville, Indiana where she received her Bachelor of Science Degree in Mass Communication, and her Master’s Degree in Public Administration from the University of Michigan Rackham Graduate School, Ann Arbor, Michigan. Tonya is currently a doctoral student pursuing her Ph.D. in Educational Leadership at Central Michigan University. She is also a KCP Future Faculty Fellow and has taught both at the pre-college and within the College of Arts and Sciences at the University of Michigan-Flint and Davenport University. She has served on numerous faculty committees, administrative task force groups and education initiatives. Her research interests include: “First-Generation College Student Persistence,” “Mattering among marginalized groups,” Sense of belonging and its relation to dropout prevention,” “Data Visualization – A Powerful Tool for Educational Research,” “Keeping College Affordable & Within Reach,” and “Teaching that reaches: strategies that improve academic success.”

Over 20+ years of experience in higher education administering student support initiatives, providing instruction and successful at various leadership/management roles, Tonya’s passion is to assist individuals from diverse backgrounds such that they excel beyond their potential. “I see myself as a “lid-lifter” wherein I help to uncap the true value, skills and dreams within others,” Bailey said. In addition to her career in postsecondary education, she is the co-founder of Pick a Place and Start (P.A.P.A.S.) 501 C3 Community Development Corporation dedicated to youth development, women empowerment, cultural awareness and community economic revitalization.

An accomplished licensed realtor, a recording artist and the host of a weekly inspirational broadcast called “It’s Yours!” which aims to empower and educate listeners to have daily success. Her motto, “Change your Mind, You Change Your Moment,” is one of her soon to be released books to help audiences gain a winning mindset in life. Tonya finds time to volunteer and serve in her community and is on various board including Big Brothers, Big Sisters of Flint wherein she serves as 2nd Vice Chair. Currently, she is the Lead Advisor for a nonprofit organization that aims to combat the spread of HIV/AIDS.

She is happily married, and the proud mother of five children: daughters Lekeisha 27, Leah 20 and sons Le III 17, Levi Priest 13 and Leland Daniel 10 years old. She has 3 grandchildren and is affectionately called “GlamMom” by them. In addition to her natural children, Mrs. Bailey and her husband adopted three children thus creating a beautiful family of eight children. A servant-leader, compassionate citizen and change agent, Tonya C. Bailey.

| 9:00am – 10:30am | Excellence in Practice Awards  
General Session – Opening Keynote  
Keynote Speakers:  
Wendy Larvick, Chief of Staff to State Superintendent, State of Michigan  
Roger Curtis, Director, Michigan Department of Talent and Economic Development | Ambassador Ballroom (2nd Floor) |
| 10:30am – 11:00am | Coffee Break with Exhibitors                                                                     |                               |
| 11:00am – 12:00pm | **SESSION A**  
**DISCIPLINE**  
**LOCATION**  
Kaduceus Kaleidoscope  
This presentation will inform participants of the kaleidoscope of certification opportunities available to Michigan students. Experience real world exercises designed to prepare students for a successful certification completion, including an overview of the patient care technician role in health care. The presentation will give insight into the skills and education required to receive a national certification, as well as opportunities for a student to receive multiple certifications through one program. Additional program discussion will include Medical Assistant, Certified Nursing Assistant, Veterinary Assistant, Medical Billing and Coding, Pharmacy Technician, and Foundations of Health Science.  
Melissa Johnson-Curran, Educational Consultant, Kaduceus  
Dhania Miller, Program Coordinator, Kaduceus  
Host: Dana Hughes, Education Consultant, MDE/OCTE | Berkey Room (3rd Floor) |
|                | Ferris Now to Ferris Next  
Representatives from Ferris State University will discuss the Ferris Now programs, which provide opportunities for secondary students to earn college credit. Learn how credit earned in these programs can assist students with the transition to college and how Ferris Now students can earn the Ferris Next Scholarship.  
Leah Melichar, Pre-College Specialist, Ferris State University  
DeeDee Stakley, Director, Office of Transfer and Secondary School Partnerships, Ferris State University | Emerald Room A (2nd Floor) |
|                | Updates on Michigan’s Dual Enrollment Law (Presentation Repeated in Session B)  
Representatives from the Michigan Department of Education will discuss student, institution, class, and expense eligibility as they pertain to recently updated dual enrollment legislation. Additional topics include dual enrollment opportunities for nonpublic school students and financial incentives available to districts supporting postsecondary opportunities for students.  
Christopher May, Financial Specialist, Michigan Department of Education  
Eric Lipinski, Analyst, Michigan Department of Education | Gerald R and Betty Ford Presidential Ballroom (1st Floor) |
|                | Pathways to Energy Apprenticeships  
Due to increased interest at the state and national levels, apprenticeship opportunities for many industries are increasing. The energy industry is no exception. Thanks to a recent grant from the Department of Labor, we have added over 250 registered apprentices in 2017 alone. How does a student begin to be eligible for these opportunities? Come to this session to discover.  
Amber Fogarty, Learning Facilitator II, Consumers Energy  
Deborah Majeski, Center of Excellence Training, DTE | Governors Room (2nd Floor) |

Host: Joe Anderson, Principal, Livonia Career Technical Center

### Beyond Content Standards…Social Emotional Learning Helps Students Succeed

The Michigan Department of Education developed Birth-Grade 12 Social and Emotional Learning Competencies to reframe the perspective and approach of teaching and learning, encouraging educators and caregivers to work with youth holistically. Join us as we discuss the competencies needed for youth to successfully master college and career readiness standards.

Lauren Kazee, Mental Health Consultant, Michigan Department of Education  
Shawn Cannarile, Safe Schools Healthy Students State Coordinator, Michigan Department of Education  

Host: Beverly Brown, Manager, OCTE, Michigan Department of Education

### Impact and Influence: Instructional Coaching in CTE

This is a collaborative presentation between the Branch & Calhoun Area Career Centers and is intended for any CTE educator with a desire to learn more about the power of instructional coaching. We invite you to join us to hear from instructional coaches, teachers and administrators sharing their stories and have the opportunity to respond to questions about this exciting work.

Coreen McCaul, Consultant, Calhoun Area Career Center/Calhoun ISD  
Tammy Schiller, Educational Consultant, Calhoun ISD

Host: Dorene Hughey, Administrative Assistant, Calhoun ISD

### Where Classroom Learning Labs and 5D+ Intersect

Classroom Learning Labs are an exciting way for teacher to teacher professional learning to happen. We have been using these in our CTE center for a couple of years. Come and experience where we have innovated on the concept for use in our 5D+ evaluation system.

Technology, peer assessment, collaborative learning, learning labs, and always fun!  
Laura Robinson, Instructional Coach, 4 On-Campus Schools, Kent ISD  
Andrew Steinman, Educational Technology Consultant, Kent ISD  
Elizabeth Mazur, Kent Transition Center Instructor, Kent ISD

Host: Barry Hall, Career Program Facilitator, Ferris State University

### CTE, STEM, and Common Core: Best Practices in Contextualized/Integrated Curriculum

CTE and Math teachers team teach mathematics courses taught through relevant project-based CTE curriculum. Algebra I in Manufacturing Processes, Entrepreneurship, Design (AMPED) and Geometry in Construction are fully developed courses taught in multiple schools. More than simulations, we strive for student mastery and narrowing of the achievement gap.

Scott Burke, Teacher, Loveland High School  
Tom Moore, Teacher, Loveland High School

Host: Dana Hughes, Education Consultant, OCTE, Michigan Department of Education

### Creating Successful College Credit Opportunities for Michigan’s High School Students

We will discuss college credit opportunities for high school students. We will review the various types of college credit and how to choose the appropriate pre-college program. We will provide tips for developing and maintaining successful partnerships between secondary and postsecondary institutions. We will share information about student academic support services.

Leah Melichar, Pre-College Specialist, Ferris State University  
DeeDee Stakley, Director, Office of Transfer and Secondary School Partnerships, Ferris State University

Host: Sheree Price, Higher Education Consultant, Talent Investment Agency

| 1:45pm – 2:45pm | **SESSION B, CONTINUED**  
**TEALS – Teach High School Computer Science with Tech Industry Volunteers**  
Come learn about how Technology Education and Literacy in Schools (TEALS) helps high schools build and grow sustainable computer science programs by pairing trained computer science professionals, from across the tech industry, with classroom teachers to teach computer science in high schools throughout the United States. TEALS volunteers and partner teachers create a ripple effect, impacting the students they teach, and the many students who will study Computer Science in the future.  
Andrew Spiece, Michigan Regional Manager, TEALS, Xtreme Consulting Group, Inc.  
Brandon Paradis, Computer Science Teacher, West Michigan Aviation Academy  
Host: Julie Boss, Career Tech Center Counselor, Wexford-Missaukee ISD | **TEALS – Teach High School Computer Science with Tech Industry Volunteers** | Senator Vandenberg Room B (2nd Floor) |
| 2:45pm – 3:00pm | **Exhibitor Break**                                                                 |           |                      |
| 3:00pm – 4:00pm | **SESSION C**  
**School Counselors – The Significance of Their Role, Appropriate Placement, Hiring, and Credentialing**  
This session covers credentials issued to school counselors and their role, including the importance of administrators hiring and appropriately placing school counselors, the impact of HB 4181 which addresses career and college preparation training to renew school counselor credentials, and newly proposed bills related to career counseling and school counselors.  
Beatrice M. Harrison, M.A., Higher Education Consultant, Michigan Department of Education, Office of Professional Preparation Services  
Host: Dana Hughes, Education Consultant, OCTE, Michigan Department of Education | **School Counselors – The Significance of Their Role, Appropriate Placement, Hiring, and Credentialing** | Berkey Room (3rd Floor) |
| Get Into the Zone - The Skills Gap Dilemma Revisited | We are familiar with internships, work-based learning, and the skills gap. This session will further explore a student-centered approach to externships by discussing Vygotsky’s Zone of Proximal Development (ZPD) theory. Learn how students, educators, industry mentors, and parents can collaborate to develop a CTE community through the use of ‘industrial media.’  
By utilizing a new innovative web-based program that combines the MCCTE Navigator and the Employability Skills Framework, learn how we can improve a students’ work experience and prepare them for a successful future in the workforce industry.  
James Dawson, Instructor, Ferris State University  
Adam Manley, Associate Professor, Western Michigan University  
Host: Shereee Price, Higher Education Consultant, Talent Investment Agency | | Emerald Room A (2nd Floor) |
| Partnerships with Educators and Employers - Explore the Possibilities! | One county’s exploration of educators and employers working toward a common mission; a clear career direction for today’s graduates. Sharing of best practices and pitfalls to consider when working across industries to increase career exploration leading to increased CTE enrollment, internships, industry partnerships, etc. Group discussion of best practices and lessons learned will conclude the session.  
Laura Hoehn, Career and College Readiness Coordinator, Livingston Educational Service Agency  
Pamela McConaghy, President, Greater Brighton Area Chamber of Commerce  
Carrie Bonofiglio, Business Partnerships Coordinator, MiBright Future, Workforce Intelligence Network  
Host: Jill Kroll, Supervisor, OCTE, Michigan Department of Education | | Emerald Room B (2nd Floor) |
| Leveraging Labor Market Information to Prepare Today’s Students for Tomorrow’s Careers | A presentation on products and tools available from the Michigan Bureau of Labor Market Information and Strategic Initiatives (LMISI) containing information on career opportunities in Michigan (e.g., the Going Pro Hot 25 or the Michigan Education and Career Pathfinder). Learn how to obtain labor market data from LMISI’s website (www.michigan.gov/lmi) for your own analysis.  
Dr. Leonidas Murembya, Bureau of Labor Market Information and Strategic Initiatives  
Host: Liz Burbatt, TIP Scholars Coordinator, Ferris State University | | Gerald R and Betty Ford Presidential Ballroom (1st Floor) |

| **Student Growth and CTE – Student Learning Outcome’s, Data and Other 4 Letter Words**
This session will examine and discuss six methods of measuring academic growth as well as how student learning outcome’s, achievement data and assessments in CTE programs can be used in measuring student growth.  
Tim Staffen, Principal, Career Curriculum Development Association of Michigan
Diana Allard, CTE Curriculum Coordinator, Genesee ISD
Dan Draper, Assistant Principal, Jackson Area Career Center
Jenny Heath, Director/Principal, Lenawee ISD TECH Center
Host: Dave Cox, CTE Director, Wexford-Missaukee ISD

| **Law Enforcement Technology for Cognitive Thinking**
A police simulator will be used to develop cognitive thinking skills, communication skills and teamwork. A demonstration of the MILO range system will show how to use this technology with a law enforcement curriculum. The presentation will also incorporate how the technology can inform students' perceptions about the realities of police work.  
Martin Brown, Law Enforcement Instructor, Calhoun Area Career Center
Deirdre Ford, Criminal Justice Instructor, Calhoun Area Career Center
Host: Chris Machiniak, CTE Director, Berrien RESA

| **Interested in Learning About Emerging Careers?**
Laser technicians are in high demand by the growing photonics industry in Michigan and nationally. These technicians work in manufacturing, defense, communications, lighting and many other industries. Session attendees will learn about the teacher summer institute, program of study, student guidance materials and student early college credit opportunities. These opportunities are available to physics, mechatronics, engineering and drafting teachers.  
Brian Pyles, Education Consultant, Baker College
Ellis Love, Instructor, Baker College
Host: Margo Hazelman, Curriculum Compliance and E/MC Coordinator, Eaton RESA

| **Michigan’s Innovation Council**
The goal of the Innovation Council (IC) is to foster innovative projects and practices across the state leading to improved outcomes. It is designed to support creative models through advice and policy waivers where allowable and applicable. This session will provide an overview of the IC and allow participants to discuss their innovative ideas.  
Gregg Dionne, Supervisor, Michigan Department of Education
Brian Ciloski, Analyst, Michigan Department of Education
Host: Barry Hall, Career Program Facilitator, Ferris State University

| **Proven Solutions to Classroom Behavior Problems (Part 2)**
The five components of this presentation are what all the major researchers are saying should be in classrooms. They are practical, proven, powerful strategies that work in the classroom and not only decrease discipline challenges, but increase your academic achievements as well.  
John Okon, Professor, Stratford University/Career and Technical Education
Eti Umana, Educator, Career and Technical Education

### CTE Systems: Systems in Place for Change and Student Success
Learn how two career centers are implementing the Blueprint model to ultimately improve student achievement. Branch Area Careers Center and Calhoun Area Career Center have identified the need for systems change and documentation of systems. Both centers are working independently on improving systems for staff to improve student success. We have found the Blueprint model works, therefore we are working together to improve both centers.

**Jamie Engel, Director, Branch Area Careers Center**

**Using the Personal Curriculum to Individualize the Michigan Merit Curriculum**
As Michigan strives to ensure that all students are "Career and College Ready", the Michigan Merit Curriculum may need to be modified to meet the needs of every learner. This session explains the modifications that are allowable through a personal curriculum, providing options for students to customize their education according to their post-school goals.

- Rashell Bowerman, Consultant, Michigan Department of Education

**Host:** Melissa Springsteen, E/MC Consultant, Berrien RESA

**Where Have All the Workers Gone? Filling in the Skills Trade Gap**
The Mechatronics program at Kent Career Technical Center collaborated with advisory committee members and industry partners to provide second year students with paid internships/pre-apprenticeships for three days per week for a semester. This is the story of how the internships were implemented and the impact it had on businesses and students.

- Dr. Denise Mahoney, Pre-Apprentice Liaison, Kent ISD/Kent Career Technical Center
- Mike Stephens, Automation and Controls Engineer, Gill Industries
- Travis Raspotnik, Mechatronics Instructor, Kent ISD/Kent Career Technical Center

**Who Do They Think We Are?**
Common misconceptions exist in both CTE and the school counseling profession. As a result of these misconceptions, students are missing opportunities that could potentially lead them towards their desired goals and dreams. Learn strategies and techniques to develop collaborative partnerships that not only help educators and counselors advocate for their students, but also advocate for CTE and their professions.

- Terri Tchorzynski, School Counselor, Calhoun Area Career Center

**Digital Arts Film and Television Media Teacher Symposium**
The Digital Arts Film and Television organization presents a symposium for media teachers to aid in the creation and improvement of media classes. There are multiple break out sessions for secondary and middle school programs.

**The Pipeline to Apprenticeship**
This presentation will focus on how to prepare your students for a construction trades apprenticeship. We will discuss some of the existing programs such as pre-apprenticeship and apprentice readiness. What are the best pieces of these programs? Could you create or add to your existing program?

- John Hartwell, Apprentice Coordinator, Operating Engineers

**Host:** John Partridge, Computer Networking/Electronics Instructor, Wexford-Missaukee ISD

Tips on TIP - Understanding the Tuition Incentive Program and TIP Scholars Program at Ferris State University
The Tuition Incentive Program is a grant through the State of Michigan for students who meet Medicaid requirements. Never heard of TIP? Heard of TIP, but just want more information? In this session, you’ll receive information on how to apply and key things you need to know (FAFSA, timeline, etc.). We will also have TIP Scholars available to answer questions.
Elizabeth Burbatt, TIP Scholars Coordinator, Ferris State University
Host: Jamie Scappaticci, CTE Coordinator, Livingston ESA

Supporting Project-Based Learning with Agile Tools
Traditional planning and tracking works well for complicated tasks, but how can students and educators manage project-based learning experiences with high complexity and emerging requirements? This session presents an overview of agile project management concepts along with implementations in the classroom. Tools are demonstrated that maximize your team’s success.
Keith Kelly, Program Coordinator, Northwestern Michigan College
Host: Joe Anderson, Principal, Livonia Career Technical Center

Michigan’s Career and Technical Education Data Dashboards
Since 2012, the Office of Career and Technical Education in Michigan has been using Tableau data dashboards to present its data on eight secondary core performance indicators for Career and Technical Education. This presentation will delve into Michigan’s core performance indicator data dashboards and methods to identify gaps in performance.
Krishnan Sudharsan, Research Consultant, OCTE, Michigan Department of Education
Host: Jason Evers, Consultant, Career and Technical Education, Wayne RESA

Different Ways to Teach Insurance in Your Classroom
Do you want to teach just the basics of buying and being an insurance consumer? Do you want to do a full semester, year, even two years on insurance? There are many resources out there to bring insurance into your classroom. You can also pair with colleges in the state to provide articulated or direct credits to your students.
Rita LaMoreaux, Young Agent Specialist, Michigan Association of Insurance Agents Lori Conarton, Communications Director, Insurance Alliance of Michigan
Host: Dorene Hughey, Administrative Assistant, Calhoun ISD

Using Project-Based Learning for Career Exploration in Middle School
Project-based learning as a middle school program designed to give students a taste of how science, technology, engineering, and math concepts are applied in a wide range of different career clusters. Projects make the students career-aware and will allow students to develop their interests and options as they move into later grades and choose careers and college courses.
Andrew Gillies, LJ Create
Andrew Knapik, Renton Junior High School
Host: Jennifer LaDuke, Director of CTE, Monroe County ISD

**Front Street Writers - Capitalizing on an Industry Partnership**

In partnership with the National Writers Series, we bring world-class writing instruction to students by capitalizing on the thriving writing scene in our town. Best-selling authors join our students to share their experiences of how to make a living as a working writer. Writing across all sectors of business and industry including journalism, broadcasting, marketing, and digital media are explored.

Stephanie Long, Curriculum Supervisor, Traverse Bay Area ISD Career-Tech Center  
Teresa Scollon, Instructor, Traverse Bay Area ISD Career-Tech Center  

Host: LeAnne Bush, Work Based Learning Coordinator, Wexford-Missaukee ISD

**Building Stronger Arts, A/V Technology and Communications Programs!**

A recap of the 2017 DAFT Media Teacher & Student Symposia. This informational workshop is designed for CTE teachers and administrators with programs in this cluster and K-8 Art teachers in local districts! Learn how to Grow a K-8 Media Program, Animation on a Shoestring Budget, Grant-Writing Secrets, Clients for Your Students, Out-of-State Field Trips and more!

Kevin Walsh, Radio/TV Instructor, Southfield High School for Arts and Technology

Host: Sue Gardner, Assistant Superintendent, Eaton RESA

**How to Teach Social Media Using a Simulation**

Stukent is a digital courseware provider used by over 700 instructors in over 40 countries. We developed the world’s #1 digital marketing courseware along with social media marketing courseware. We constantly update instructor resources like lecture slides, lesson plans, quiz review slides, test banks, sample syllabus, hands-on projects, and more!

Adam Pace, Course Consultant, Stukent

Host: Kris Jenkins, Assistant Superintendent of Regional CTE, Calhoun ISD

**Engaging Youth in Global Entrepreneurship**

An interactive session engaging the educators with best practices on teaching global entrepreneurship. Participants will be engaged in starting a business as entrepreneurs and selling it globally while working with teams and people both locally and globally, and engaging the local community in STEM based entrepreneurship.

Faris Alami, CEO and Founder, International Strategic Management  
Patricia Salo, Training Director, International Strategic Management

Host: Mary Lynn Noah, Assistant Director, Michigan Department of Talent and Economic Development

**Michigan Initiative for Cybersecurity Education Update**

Cybersecurity is not just for the technology gurus, the topic of Cybersecurity spans all areas of business, manufacturing, and healthcare. The MICE team is dedicated to helping teachers understand and develop a Cybersecurity education program. How to integrate Cybersecurity concepts into their current programs and provide resources in this ever-evolving field.

Patrick Schultz, Technology Integration Specialist, Bay-Arenac ISD  
Dennis Klaas, Work Based Learning Coordinator, Warren Consolidated Schools  
Carlos Garcia, Cybersecurity Instructor, Jackson Community College  
Michael Ricard, Cybersecurity Teacher, Bay-Arenac ISD

Host: Brenda Belcher, Principal Leader-CTE, Detroit Public Schools Community District

**Providing Quality Education for All Students**

What does quality education mean? Is it having the best teachers? A focus on career readiness? While opinions may differ, true quality enables every child to succeed through exposure and access to a combination of general and technical programs and support systems. Hear about strategies to provide quality education for all students.

Naheed Huq, Manager of Talent and Economic Development, Southeast Michigan Council of Governments  
Donald Hubler, Secretary, Macomb ISD, Board of Trustees  
David Hecker, President, AFT – Michigan

Host: Chris Machiniak, CTE Director, Berrien RESA

Michigan Talent Investment Agency (TIA) was created to bridge the gap between talent and employers. Through programs focused on job preparedness, career-based education, worker training, employment assistance and unemployment insurance, TIA can help to:
- Provide personalized assistance to Michigan’s job seekers and employers
- Provide access to educational and training resources
- Provide assistance to Michigan’s citizens in time of need
- Close the skills gap

Carl D. Perkins Grant
A partnership between the Talent Investment Agency (TIA), twenty-eight community colleges, three public universities, and one tribal college in Michigan to provide technical assistance for Carl D. Perkins Career and Technical Education grants. The mission is to promote access to, retention in, and completion of individual student goals in quality and comprehensive career and technical post-secondary education. The program allocates federal funds and provides technical assistance to:
- Develop new occupational programs
- Improve career guidance and counseling activities
- Upgrade the skills and competencies of occupational education faculty and staff
- Improve accountability measures
- Improve the transition of students between secondary, community colleges, four-year institutions and the workplace

Skilled Trades Training Fund (STTF)
STTF provides competitive awards for employer responsive training that enhances talent, productivity and employment retention while increasing the quality and competitiveness of Michigan’s employers. The STTF ensures Michigan’s employers have the talent they need to compete and grow, and individuals have the skills they need for in-demand jobs. More information available at www.michigan.gov/wda.

Michigan’s Industry Cluster Approach (MICA)
MICA creates a framework in which many employers within a single industry engage with the talent system to identify their demand. In this approach, talent issues may be handled more efficiently through multi-company, industry-focused training programs. Regionally, employers along with education providers, economic development organizations and other groups associated with workforce development are convened to solve talent challenges. Local clusters are formed based on local needs and are led by industry. For more information point your browser at: www.michigan.gov/mica or contact: mica@michigan.gov

Registered Apprenticeship
Growing Registered Apprenticeship is a priority for Michigan. Registered Apprenticeship is a strategic approach to creating a pipeline of professional workers. The training model combines classroom-based learning with the paid on-the-job training in high-wage, high-growth industries. Registered Apprenticeships have benefits for employers, apprentices, and our economy. Contact your local Apprenticeship Success Coordinator, contact information at bit.ly/MIApprentice.
